OBJECTIVE

Aspiring software developer seeking an entry-level role where I can apply and expand my skills in web and software development. Eager to contribute to innovative projects and gain hands-on experience in a professional environment. Strong foundation in front-end technologies, problem-solving, and customer service.

EDUCATION

Introduction to Coding | SheCodes Foundation

July 2024 – August 2024

- Gained foundational knowledge of HTML and CSS
- Built interactive and responsive web projects using best practices
- Developed a basic understanding of web development principles and workflows
- Strengthened problem-solving skills through hands-on coding challenges
- Earned certification upon successful completion of the course

Introduction to Web development | SheCodes Foundation

July 2024 – August 2024

- Gained hands-on experience with HTML, CSS, and JavaScript
- Built interactive web projects to apply newly learned coding concepts
- Learned the structure of web pages, styling with CSS, and dynamic behavior using JavaScript
- Developed problem-solving skills and confidence in working with front-end technologies
- Earned certification upon course completion

Web development | SheCodes Foundation

August 2024 – November 2024

- Gained skills on how to fetch real data from live APIs,
- I gained knowledge on how to use code management tools that professionals love, and how to integrate Artificial Intelligence tools into my code.
- I gained knowledge on how to make my code responsive to any device

Software development | Melsoft Academy

January 2025 – Current

- I am proficient in data capturing techniques, particularly using Microsoft Excel spreadsheets.
- Improved interpersonal communication skills and the ability to better understand and relate to others.
- Enhanced problem-solving abilities through real-world tasks and challenges.
- Understanding of software development life cycle (SDLC) and project workflows (Agile).
- Basic understanding of databases and SQL.
- Critical thinking and analytical skills.

TECHNICAL SKILLS

- HTML, CSS, JavaScript
- Responsive Web Design
- Debugging and Testing
- User Interface Design
- Version Control (Git)
- API Integration
- Basic SQL
- Microsoft Excel
- Agile Methodologies

SOFT SKILLS

- Problem-Solving
- Attention to Detail
- Time Management
- Planning
- Communication
- Research

PROJECTS

Weather App
Technologies: HTML, CSS, JavaScript, APIs

- Developed a responsive and user-friendly weather app
- Integrated a live weather API to allow users to search weather data by city
- Implemented modern UI design principles and ensured full device responsiveness

Survey Form
Technologies: HTML, CSS

- Created a responsive and visually clean form for user surveys
- Ensured compatibility across devices using responsive design techniques

Registration Form
Technologies: HTML, CSS

- Designed and implemented a responsive registration form
- Emphasized clean layout and user accessibility

ACTIVITIES & INTERESTS

- Passionate about coding, self-learning, and improving tech skills
- Enjoy baking, reading, and listening to music for creativity and relaxation
- Played competitive netball, placing third in a tournament sponsored by Absa Bank
- Led school-wide events, demonstrating creativity, leadership, and teamwork
